Dear Ms Peck,

**Proposed works to Centre Point Application nos**

PP – 2013/1957/P and PP – 2013/1970/P

We are a Camden firm of architects with our main studios in Cleveland Street. I also studied at the AA School of Architecture in Bedford Square and I therefore pass through the area affected by this planning application most days and have done for many years. I would like to register my strong support for this scheme and the proposed careful reworking of this prominent building.

Yours sincerely,
