LOSS OF PRIVACY OF NEIGHBOURS

Given the height of the proposed terrace/balcony anyone on it would have a clear, uninterrupted view of at least 4 rear gardens in the street - almost like a watch tower. Any resident in those gardens who was n. h. g. out, or playing with their children, etc. would be seen, hence suffering a loss of their existing privacy. Also any noise from the proposed terrace would be much louder than that coming from an existing open window.

PRECEDENT

As no other house in the street has an elevated rear terrace granting the application would create a precedent for further similar applications. This or any further elevated terraces would lead to even greater loss of privacy for existing and future residents.
