Subject: camden Lock market

Malcolm,

Reading the EIA screening opinion application letter sent on behalf of Urban Market Co. The statement is made that an historic impact report has been submitted by JMP and ABA . Is this correct ?

The application lists the works which are to be included in the Application . Does this mean that no account will be taken of the quite substantial possible objections we and others have listed and on which no discussion has followed .

Camden Council may find it difficult to consider giving an Opinion on this letter at this pre-application stage unless it has already agreed the plans with the future applicant ? ?

Regards

Anthony Richardson
