Details of the pre-application advice received:

The design needs to respond to and reinforce the classical facades of the adjoining 19th Century terrace. I would recommend uncomplicated scheme which has a simple palette of 1 or 2 materials
I thought my email was clear but as requested to give you further direction...
In my view you should be seeing to provide a pared down contemporary version of a terraced townhouse. This is considered to represent a rectangular vertical envelope with simple palette of materials and regular punctured openings.
To ensure you respect and not overwhelm, in my view, the contemporary design should be simple and, rational, relying on the fenestration to provide visual interest and depth to the elevations. The success of the development is considered to depend on the appropriate use of high quality materials, detailed design and finished appearance. Finesse can be added if necessary through, window details; brick work; at the base much like a window architraves; brick arches and stucco base found on typical 19th Century terraces.
See attached pdf for examples!
