(Items marked with an * are required to be actioned for compliance with the Building Regulations)		

A commencement site visit was carried out unaccompanied view the progress of the works.

The following observations were made:-

1. Request for visit to inspect a commencement of works to the basement.

2. 1 no underpinning bases seen which has now poured. Unable to determine depth of base as ground was covered over. Unable to determine ground condition. 75mm dry-packing seen above base in between base and existing foundation over. Please confirm depth and sub-strata.
3. Ground to be backfilled until further works continue.
