2014/4257/P	R. Herring	Flat C 22/24 Swains Lane London N6 6 QR	18/08/2014 10:59:18	OBJEMAIL	I object to the development of the roof terrace on 10b St Albans Rd. 1] Loss of Privacy on our gardens 22/24 Swains Lane and into our Windows on the first floor. 2] Increased noise from this open terrace, the property has already been previously let to tenants who have hosted late night events the prospect of these being out on the proposed terrace concerns me. 3] The introduction of a roof terrace significantly changes the physical aspect of the house and is not in keeping with that property and the surrounding properties. These are my grounds for objecting to this major change.
2014/4257/P	Reginald Culbert	22-24F swains lane highgate n6 6qr	13/08/2014 18:59:42	COMMNT	My wife and I strongly oppose this decision because we are both old age pensioners, we are directly opposite them and this will not only interrupt our privacy. It will also block the light and views from our windows, as we know this is a conservation area I thought we should minimize the noise and buildings around the area. Our roads will be blocked by the materials that are being delivered and it will be impossible for the c11 bus to get through especially when cars are parked both sides of the road.
