2014/4531/P	Nancy Mayo	12A Hollycroft Avenue London NW3 7QL	19/08/2014 14:57:25	OBJ	<p>The Woodland Trust advises that, as a precautionary minimum for veteran trees, no works take place within an area that has a radius 15 times the diameter of the tree at breast height or 5m beyond the crown, whichever is the greater.</p> <p>The applicants, by contrast, appear to be stipulating reduced tree production zones for the veteran trees, thereby subjecting them to a real risk of harm. This is completely unacceptable and the footprint of the proposed plans therefore needs to be redesigned accordingly.</p>
