| 2014/4681/P | Hideko Wakata | Flat 16 The Chesterfields 1b King Henry's Road London Nw3 3qp | 19/08/2014 20:54:28 | COMMNT | I would like to object to the vents on the rear elevation because: 1. The Chesterfields is an historic building, it is a school for poor boys dating back to 1800's and the vents are out of keeping with the appearance of the building. 2. The vents are directly opposite my balcony and the smell and noise will have a detrimental affect on my quality of life. 3. Cowshed originally agreed to put these vents to the front of the building. Thank you. Please note I do not have an email address so I have listed my friend's email. |
