2014/3683/P	Ian Haines	22 Warner House	13/08/2014 17:39:46	COMMNT	The Daylight and Sunlight report fails to consider the impact on the Warner Building.

Can you either extend the report to cover the Warner Building or justify on what basis you've excluded it from the report.

My flat will be able to see the new upper floors therefore there will be a lighting impact.
