2014/4359/P	Francoise Findlay	1 Lower Merton Rise NW3 3RA	05/08/2014 11:02:01	OBJ	I write as Chairman of Elsworthy Residents Association and member of Belsize CAAC. The proposed extension to this maisonette is already a substantial increase to the property and incursion to the garden space. The "studio" would mean further loss of soft landscaping combined with an inevitable terrace and path from the house . In addition the studio will be above the height of the flank walls and intrude on the views of neighbours. The chestnut is noted but the drawing gives no indication of its actual size nor the root spread. It is an old tree and can be seen from the street and should not be threatened for the sake of this "studio".

2014/4359/P	Margaret Cox, Alan Barnard	Flat3/Flat2 111 King Henry's Road Camden London NW3 3QX	03/08/2014 11:33:04	COMMNT	Need reassurance that Health&Safety issues addressed.eg EASY ACCESS to side/rear of house for emergency services i.e. Fire Brigade. I'm vulnerable on top floor as is & Mr. Barnard below flat 2. He supports comments.
