2014/4394/P	Mary Richardson	Flat 3 13 Pond St London NW3 2PN	01/08/2014 19:46:07	COMMNT	This is an application in an amended form from a very recent one and also seeks to build over garden space behind properties mostly residentially occupied. Apart from the overall diminution of residential space and amenity, it will present neighbouring properties with the risk of easier access and nuisance, including from chance crime and loss of privacy, including because of a French window on the extension facing my flat. There is already a flat roof onto which my flat looks, to the rear, which looked 'green' but now presents as an eyesore, resembling a grey car park or playground area with small sized shale scattered on it.
