Even the temporary erection of anything like a 'Paddington Bear' statue at the top of Primrose Hill is offensive and deeply upsetting. Primrose Hill should never be used in this way, for commercial, religious or any other form of exploitation, as it is meant to be for the pleasure and amenity of park users - this includes enjoyment of its spaces and its views. It would be a very bad precedent, to allow this application, which is no less objectionable than the previously mooted idea of allowing the Rio Christ figure lookalike and which caused outrage with many local residents and the general public.</p> <p>Robert and Ann Marie Starr 13 Elsworthy Road, NW3 3DS</p>
