

To Whom It May Concern

Camden Council Planning Department

30<sup>th</sup> July 2014

Dear Sir;

**Re: Planning Permission 35 - 43 Cubitt Street London WC1X 0PB**

We have been requested to obtain planning permission for the replacement of existing windows to the above small block of flats by Lakehouse Contracts who in turn were instructed by the London Borough of Camden for the above properties.

The block forms part of a terraced building with 2 storey dwellings alongside. The existing windows to the first and second floor levels, front and rear elevations, are to be replaced with satin anodised aluminium windows, generally to match those already changed to the ground floor levels; enclosed you will find photographs showing the front and rear elevations.

Enclosed also you will find a data sheet demonstrating the aluminium profile that we intend using, drawings showing the styles of the windows to be used along with a map showing the location of the building.

Should you require any further information please do not hesitate to contact me.

Yours sincerely

*Steve Butler*
