2014/3590/P	Philip Butler	Flat 9 Crowndale Court NW1 1TY	04/07/2014 16:13:40 INT		The only concern is whether the planned community centre would attract more problems with groups of young men who come into the back of the car park area. This has been ongoing, with drug related activities, gang fights, etc. It is not a safe area for the estate kids to be in the evening and causes nuisance to residents, with estate patrol regularly being called. When this application is considered, would it be possible to establish what, if anything, can be done to alleviate potential problems? Especially the area concerned could be made more safe from these activities?
