

**KEY HEALTH AND SAFETY RISKS:**

**Installation:**

- Installation, handling of heavy parts on facade or roof glass
- Falling from height when working from scaffolds or elevating platform

**Operation:**

- Falling from height by person climbing glass structure
- Fall from height during cleaning or maintenance of interior or exterior
- Fall from height by access to internal gullies / ledges
- Vehicle driving through glass envelope and falling into ticket hall
- Handling and replacement of steel claddings for maintenance of cabling behind
- Traffic at road level in close proximity to North Plaza entrance
- Installation and maintenance of services at High level in the glass entrances

**Demolition:**

- Handling of heavy parts

**Notes:**

- General notes see drawing no. SLE-N105-8742-STR-D-PLN-1-001/01
