Subject: Comments on 2014/3590/P have been received by the council.

I object on behalf of the Management Committee who run this estate as we already have a community hall on this estate as well as a mosque. our present community hall is used 4 times a week by local Somali groups. another community hall on the estate would create numerous problems for us and impact on our expenditure/budgets such extra cleaning etc. and we are always left to clean up after use it would also effect the quality of our tenants lives as there would be increased noise and traffic. we are already at bursting point with cars and this would bring more onto our estate. We currently have a problem with gangs of youths and drug dealing and we feel that allowing more people to congregate on the estate would cause a lot of problems for our tenants and residents who have a right to feel safe in their own environments and homes. We also object because our tenants and residents have not been informed and we as the managing agents of this estate have certainly not been informed and in fact became aware of the application through one of the present shop lease. We feel that we have enough community facilities on the estate and strongly object to another. We look forward to your response and insist that you inform all neighbouring residents before any further permission for this application is given.
