> The outside parking and garden areas of flats 1-33 Avenue Close currently look very tired and are in need of a makeover. The curb stones are uneven and dangerous and in the evening it can be poorly lit making the situation even worse. I have also noted some large puddles form after heavy showers and I m sure that the new proposed driveway would have better surface drainage than we currently have. The extra parking spaces will be very useful too.  
>  
> My apartment is probably the property most affected by these proposals as I have three large ground floor windows overlooking this front area full on, and I totally support the application by the freeholder. I note that all the other signatories on the letter objecting to this proposal are not in block 1-33 (they are in the rear part of the property) and I struggle to see how they are affected by the proposed works.
