Your comments on the planning application: I am writing to object to the planning application of 7-9 Pond Street. Of primary concern is the daylight and sunlight that will be blocked from the rear windows of the basement and ground floor offices of 5 Pond Street; these windows are the only source of natural light for the rooms at the rear of the building. The proposed works would impede the flow of natural light and cast the basement, in particular, into darkness. The lack of light would make functioning as an office space, or indeed, any habitable space, almost untenable.

Noise from any construction work would greatly affect the integrity of the music studio at 5c, as the layout in Pond Street of tall buildings with enclosed rear gardens serve to amplify sound. Issues of privacy and security posed by the height of the extension roof, and external lighting, would make adjacent flats more vulnerable. In addition, the aesthetics of the extension present a jarring contrast to the existing building.
