Planning application number 2014/5401/P

Planning application address Garden of 101 Brecknock Road NWS

I support the application (please state reasons below)

I object to the application (please state reasons below)

Your comments

In this application Camden Council's approval would again fail regarding the conservation of the local heritage as the proposed houses are not in keeping with the local architecture. There will also be the loss of green garden space important for the local habitat & biodiversity.

All of the increased housing is for the benefit of a developer and in no way providing social or affordable housing.

Most of all the ~~the~~ existing parking problems would have the danger of becoming to times as bad!

Please continue on extra sheets if you wish
