I strongly object to this naked garden-grabbing!!  
The garden ~~clearly~~ belongs to the pub and records show that this has been so since 1869. The gardens at the back of Breknock Road provide a visual amenity which we can all enjoy, as well as providing a local habitat for wildlife and biodiversity. Camden's local development and core strategy plans are said to value local conservation. (Maybe that's why we live here so long!)

Two extra houses (each with 4 bedrooms) plus the six flats next door will result in a veritable parking nightmare.
