Planning application address..... 41 HOWITT ROAD NW3 4LU

I support the application (please state reasons below) I object to the application (please state reasons below)

Your comments

We strongly object to the proposed plans for No. 41. No. 43 has just finished their extensions and that lasted over 3 years and caused distress for all of us. We are both disabled and housebound. My husband suffers from Mental Health problems and the stress of noise all day and disruption will affect him severely. We will both suffer from the noise and our quality of life will be affected dramatically. I face two operations, and I will need to come and be able to recover, in my home, without all the disruption, noise and dirt to deal with.

There's no room for residents to park (that's paid for), and we will need to park outside my house as I am physically disabled. There will be trucks coming and going outside our property, cement mixers it will be Hell, and how long will this take.

Our Mental and physical health will be affected severely. We can provide Doctor's certificates if this

would help stop this disruption to our lives.

Please continue on extra sheets if you wish
