Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

All trees located in rear garden:

- 1) Prunus remove reverted section back to ground level to improve appearance of tree
- 2 & 3) Lime x 2 Reduce and shape crowns by 30% by selective pruning to improve appearance of trees
- 4) Prunus Reduce thin crown by 20% and remove major dead wood by selective pruning to improve appearance and health
- 5) Acacia thin crown by 20% and lightly lift crown over main building by selective pruning and to improve appearance and health
