30th September 2014

Dear Sirs/Madam

The application relates to modest alterations to the top floor flat at No. 16 Buckland Crescent. The proposal includes a rear dormer window. To illustrate the existence of dormers within the area I have provided photos of other properties generally visible from, or near to my property. These are attached together with a simple sheet explaining the application in more detail.

In order to aid your officer's inspection I would like to meet the officer dealing with this application at the property so that I can point out the nearby examples of similar alternations. I can be reached on 07967 716865 or my Secretary Angela Hancock 0208 367 4625

Please contact me to arrange a suitable time for me to meet the planning officer on site.

Yours faithfully

Ray Fawehimi
