London WC1H 9JE

Date: 25th Sept 2014

Dear Sir / Madam

EXISTING AIRWAVE SOLUTIONS LIMITED MOBILE COMMUNICATION BASE STATION AT GREATER LONDON HOUSE, 180 HAMPSTEAD ROAD, LONDON NW1 7AW

Our client, Airwave Solutions currently plans to upgrade and replace transmission equipment on some of their UK communications sites in order to improve the quality and reliability of services to its clients. These works will allow Airwave Solutions to successfully update the mode of transmission from cable to wireless transmission links. The current method used to connect sites in the network is now struggling to cope with the demands of modern day mobile phone usage. Updating to a wireless link will improve quality of service to our clients by increasing bandwidth, which allows greater volumes of data and voice traffic to be sent across the network.

This application is therefore submitted under Part 24 of Schedule 2 to the Town And Country Planning (General Permitted Development) Order 1995, as amended by the Town And Country Planning (General Permitted Development) (Amendment) (England) Order 2001 and in accordance with the electronic communications code under the Telecommunications Act 1984 Schedule 2 as amended by the Communications Act 2003.

This is an application for a determination as to whether the prior approval of the Authority will be required to the siting and appearance of the development.

This application is submitted for and on behalf of Airwave Solutions and comprises:

- Installation of 1 x 300mm pole mounted dish antenna at 29.8m above ground level
- At Greater London House, 180 Hampstead Road, London NW1 7AW defined within the plan indicating its location, numbered AKRPMTR028-GA-01- rev A
- Cheque for £385 payable to London Borough of Camden
- Copy of Developer's Notice, and proof of delivery
- Confirmation as to whether the developer has had to notify the CAA or MOD or aerodrome operator which clarifies whether the proposal lies within 3km of an aerodrome.

Stanecroft, Jarvis Lane, Steyning, West Sussex BN44 3GL matt.higgins8@gmail.com

Somerville (Cheshire) Ltd

- Contact address and email address for developers

For your further assistance, we enclose additional information:-

- 1APP Prior approval form
- Supplemental drawings – GA-02, GA-03
- Site Specific Supplementary Information
- ICNIRP declaration and clarification statement

This application has been prepared in accordance with the Code of Best Practice on Mobile Phone Network Development (November 2002)

The enclosed application is identified as the most suitable option that balances operational need with local planning policies and national planning policy guidance, adding a single dish of discreet design and utilisation of internal space for the support equipment.

Furthermore we would like to assist the Local Planning Authority and would like to offer to arrange a presentation or meeting with your officers and members to discuss the issues if appropriate.

We are committed to maintaining a positive relationship with all Local Planning Authorities and we would be happy to provide any additional information in relation to this application.

We look forward to receiving your acknowledgement and decision in due course.

Yours faithfully

Matt Higgins
Surveyor
