

Jennifer Woolfenden

Ground Floor Flat

20 Bartholomew Villas

NW5 2LL

I am the owner of the Ground Floor flat at 20 Bartholomew Villas. I would like the committee to note my strong objection to this proposal. This wall will greatly affect access of light to a bedroom that is only 9' x 7'2". The only window is 22" wide. I am 76 years old and have much enjoyed having my small grandchildren to stay occasionally. The bedroom overlooks a small alleyway and is already rather gloomy. I trust that my objection may be given serious consideration.

Carolyn Porretta

18 Bartholomew Villas

NW5 2LL

The extension, including the terrace, will result in a significant loss of light for 20 Bartholomew Villas rear bedroom which window is situated at the ground floor level between 18 and 29 Bartholomew Villas (it is important to note that it is a habitable room.) Indeed, the extension will be directly in the course of the sun and due to its height will create a permanent shadow at ground floor level.
