

Application for tree works: works to trees subject to a tree preservation order (TPO) and/or notification of proposed works to trees in a conservation area.

Town and Country Planning Act 1990

You can complete and submit this form electronically via the Planning Portal by visiting www.planningportal.gov.uk/apply

Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

Please complete using block capitals and black ink.

You must use this form if you are applying for work to trees protected by a tree preservation order (TPO). (You may also use it to give notice of works to trees in a conservation area).

It is important that you read the accompanying guidance notes before filling in the form. Without the correct information, your application / notice cannot proceed.

8. Trees - Additional Information Additional information may be attached to electronic communications or provided separately in paper format. For all trees A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees or a sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer. For works to trees covered by a TPO Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details) 1. Condition of the tree(s) - e.g. it is diseased or you have fears that it might break or fall: Yes No If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert. 2. Alleged damage to property - e.g. subsidence or damage to drains or drives. Yes No A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, ro and repair proposals. Also a report from an arboriculturist to support the tree work proposals. Other structural damage (e.g. drains, walls and hard surfaces) Written technical evidence from an appropriate expert, including description of damage and possible solution. Documents and plans (for any tree)	
Additional information may be attached to electronic communications or provided separately in paper format. For all trees A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees or A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer. For works to trees covered by a PPO Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details) 1. Condition of the tree(s) = e.g. it is diseased or you have fears that it might break or fall: If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert. 2. Alleged damage to property = e.g. subsidence or damage to drains or drives. If YES, you are required to provide for: Subsidence A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, round repair proposals. Also a report from an arboriculturist to support the tree work proposals. Other structural damage (e.g. drains, walls and hard surfaces) Written technical evidence from an appropriate expert, including description of damage and possible solutions.
