Planning application address..... 277A Gray's Inn Road.....

I support the application (please state reasons below)

I object to the application (please state reasons below)

### Your comments

I support development in the immediate area. Please ensure that you are confident this development will push property values up. Any development works must be to the economic/financial benefit of the local community, and in particular, leaseholders such as myself and businesses as this will benefit Camden Council and its coffers (annual income) - very important as London/Central London is the economic powerhouse of the UK and Europe. Any flats for social tenants - please ensure only decent council tenants move in [REDACTED]

Nice area needs good people!
