Your comments on the planning application: I am very concerned about the above planning application for the following reasons:

The mews are accessed by a very narrow private roadway along which the residents park. There is only room for parking along one side and access is very tight. This road surface is the responsibility of the residents and not Camden Council.

I cannot see how the soil removed from 11 Albert Terrace mews could be removed via a skip without causing damage to the structure of both the tarmac surface and damage to the original cobbles constructed road surface at the other end of the mews. Heavy lorry traffic is not suitable for the narrow roadway of the mews I understand there is also either a well or some underground water in this area and this gives me some cause for concern with regard to the removal of existing soil. Finally I cannot understand why we have not received notification of this planning request either individually through our letter boxes nor by the placing of a sign in the mews.
