Dear Mr McDonald,

**Re: 101 Camley Street London NW1 0PF**  
**Application Ref: 2014/4385/P**

I would like to register my **support** for the above planning application in relation to the redevelopment of 101 Camley Street.

The application would see the demolition of the existing building to provide a mixed use development ranging from 4 -11 storeys comprising 2,220sqm employment floorspace, 121 new homes, the provision of a pedestrian footbridge with disabled access over the Regent's Canal and high quality landscaping.

I support the proposals for the following reasons:

- The plans will regenerate the local area and provide jobs for local people.
- The employment spaces focus on small businesses
- The new housing, including on site affordable housing is much needed in this area.
- The new pedestrian footbridge over the Regent's Canal will be welcomed, as will the plans for improving public open space.
- The development will contain a number of sustainable elements including photovoltaics, combined heat and power, recycled rainwater, new trees and planting.

I hope councillors will approve this proposal.
