The following are our objections:

- Transport is excellent in this area + we see no need for a garage which will take away 1/2 parking spaces in a street which is always crowded
- Concern over the beautiful mature trees that will have to be cut back drastically to accommodate the new building - will the roots of the trees be safeguarded from the foundations + the back retaining wall?
- Strongly object to the yellow colour in the plans + feel something more anonymous would blend in better with the surroundings
