1. The application must be rejected and enforcement action taken by Camden Council to remove the current siting of the plant room on the grounds of noise pollution and the detrimental effect the pump room in its current unauthorised position would have on the residents of Highfield Grove.
2. The owner of 41 Highgate West Hill has a history of building without planning permission and then seeking it retrospectively. This game-plan approach should be stopped by Camden Council and enforcement action taken to remove buildings erected without full planning permission.
3. The pump room as built has a detrimental effect in a conservation area. The noise from it will be a nuisance. This should have been addressed at the outset. It should NOT have been built so close to the boundary of neighbouring properties + should be removed.
