Bolsom-Morris

*My enquiry is*

I would like to apply for permission to prune the weeping willow in my garden at 3 St Mark's Crescent. This was last done 2 years ago with your permission (yOur Ref: 2012/1206/T Please ask for: Matthias Genet), and it has grown immeasurably since then. We need to take more off this time as it is getting so large. There is no access to the tree except through the house, (or by the canal which it borders). Every time the cut timber and branches from pruning comes through the house it causes damage and redecorating so we need to avoid pruning it every 2 years and try to stretch it to 4. Willow is in my garden but straddles boundary with next door on both sides, and my neighbour at no 2 is very keen for it to be done. We need to take some 3-4 metres at least off its height to get it back to where it was when last pruned and a bit more to allow for the future. I'd like to arrange pruning for later this year or early next once the leaves have fallen. Thank you.
