As permission was granted on 14.6.2011 for an extension at 3rd floor level, Belmont Court, to provide accommodation with the addition of a roof terrace (Planning Ref. 2011/1201/P), one wonders why the addition also of a Food Hoist was not included at that stage. Could it be that the premises might be used for some commercial enterprise? were this to be the case, noise levels could be unacceptable for residents in nearby Southbury and greatly affect the value of their flats.
