Planning application address..... 19 Maryon Mews, London NW3 2PU

I support the application (please state reasons below)
I object to the application (please state reasons below)

Your comments

The Plans are exactly similar to the ones already approved/implemented by owners of similar terraced houses in the same block/community. Miss Sally Shepherd from the Council has already visited the premises and the plans have been shown/explained to her. Nobody will be inconvenienced by these plans ^{as these are entirely internal}. The only "objection" I can visualise is from a neighbour on the west side of my house, ^(18-C) the real reason for that is that I had objected to the Doy he wanted to place on the wall of my house (not his own house). I will take care that nobody's privacy is affected by these plans. It must be kept in mind that the roof of these five houses (Nos 19, 20, 21, 22 & 23) is common & there is already access to the roof from at least two of these houses. My project will NOT intrude upon anyone's privacy.

Please continue on extra sheets if you wish
