Dear Sir,

I am writing to ask that Camden Council reject the application by the City of London to build dams on the Heath Ponds.

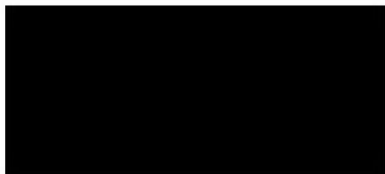

The Reservoirs Act of 1975 does not require dams of this scale. The landscape of the Heath will be disfigured for months and with the projected size - for ever.

There would be at least two years work with heavy engineering plant, + HGV movements. Untold damage to wild life will be a consequence, all for a project that is not necessary.

The City of London is supposed

to protect the health. If this scheme
goes ahead the people of Hampstead
will not forgive the City of London.

Yours faithfully.
