Name... Gordon Roberts (Dron & Wright).....

Address... 80 Cannon Street, London EC4N 6HL.....

Email address... [REDACTED].....

Telephone number... [REDACTED].....

Planning application number... 2014/4607/P.....

Planning application address... 250 Euston Road, London NW1 2PG.....

I support the application (please state reasons below)

I object to the application (please state reasons below)

Your comments

As Managing Agent for the above property we would strongly object to and oppose the installation of a public telephone, for the following reasons:

- Telephone boxes attract antisocial behaviour, which would affect the users and visitors of 250 Euston Road
- There are already local issues with Escorts 'carding' telephone boxes, this would only make matters worse
- There are already adequate telephone boxes in the vicinity
- Telephone boxes encourage loitering which can also encourage petty crime
- Telephone boxes are often used as makeshift toilets particularly in heavily populated inner city areas
- Payphones inevitably attract vandalism, people trying to break into the cash box, graffiti etc

Camden/TFL recently installed a bench and bins outside our building which has led to several complaints from building users concerning litter, harassment from vagrants, bins catching fire, antisocial behaviour and the addition of a telephone box / kiosk would only increase this.
