

We the local residents and members of the local community object to the proposed development of 7-9 Crowndale Court NW1 1TU being used as a Somali Community Centre. We are concerned with the large volume of extra people being brought into the area, the noise this would cause, the extra waste and cleanliness of the area being affected. We are also concerned about the possible affects this would have on the current limited parking that is available and the access to the street and building being obstructed.
