Ref Planning application 2014/ 3625/P - 8 Lindfield Gardens, NW3 6PU

Dear Sir or Madam

I write to object to the above planning application. My reasons are as follows:

1. Very importantly, the basement is outside the footprint of the existing building
2. The extension will result in the depletion of a large and very special garden
3. Victorian foundations are not very deep, and this could have an impact on the stability of the building when structural works have been carried out.

I ask Camden Council refuses this application for the above reasons.

Yours faithfully
