Subject: COAL AND FISH OFFICES

Dear Ms Litherland,

KXCAAC has considered the Coal and Fish Office proposals and joins with the objections of RCCAAC.

Further, KXCAAC wishes to emphasise the importance of not destroying the stables windows and avoiding the intruding ugliness of the proposed conservatory.

The conservatory would be central in views from the direction of Granary Square and from St Pancras Locks and the proposed bridge to Camley Street, thus blighting the conservation area more widely, which the applicant has failed to consider, sorry this is a little late,

Cheerio, Ernest James for KXCAAC
