2014/5405/P	Matilda Moreton	112 Mansfield Road London NW32JB	08/10/2014 17:37:59	COMMNT	<p>This planned 2nd floor rear extension would impact on our roof terrace on the same level in the following ways:</p> <ol style="list-style-type: none"> 1. It would spoil the view westwards 2. It would prevent us from being able to dry our washing on the line in the sun 3. It would prevent us from being able to grow tomatoes and other vegetables on the roof 4. It would stop the roof terrace being a place where we can relax in the sun in the evening after work 5. It would also spoil the view along the back of the terrace for our neighbours 6. It would set a precedent for other roof terraces being built up and spoil the whole terrace and possibly the whole street. <p>I would like it to be noted that we value our sunlight on this terrace in particular because the garden faces north-west and is shaded by the house for much of the day. In the evenings the roof terrace is the only place to catch the sun.</p> <p>For all these reasons I am not in favour of this extension and hope that Camden council will support my objection</p>
2014/5405/P	Marlies Kisch	2 Rona Road NW3 2 JA	20/10/2014 14:55:05	OBJ	<p>the second floor extension will seriously affect the light in my garden and house and also encroach on my privacy. Noise of building work is going to intrude into my office at top where I see clients for psychotherapy.</p>
