2014/5915/P	Janice Lough	95 Redington Road NW3 7RR	13/10/2014 20:29:13	OBJ	<p>Yet another basement application - for a basement swimming pool.</p> <p>40 Frogna Lane</p> <p>Hampstead has many underground streams and areas of sandy soil.</p> <p>In December 2011 Councillor Knight stood inside a hole that had opened up on Redington Road.</p> <p>The underground surveys that applicants are asked to carry out are paid for by the applicant?</p> <p>NW3 is unsuitable for the mass excavation of basements that we are now seeing.</p> <p>Instead of every house having a private swimming pool, why not extend the hours of the Swiss Cottage leisure centre and remove some of the parking restrictions.</p> <p>Please could you clarify how much Camden loses financially if it refuses permission for a basement excavation but the applicant appeals?</p> <p>Is it the case that the council then suffers a financial penalty?</p> <p>Thank you for reading these comments</p>
