2014/6031/P	Nicholas Imrie	Flat J 118-122 Grafton Road Kentish Town	20/10/2014 09:39:40	OBJ	Hi, we are staying in the flat directly above and strongly object to the plans. Not only will there be quite considerable disruption when the flat is being built but it also means that there will be more noise and disturbance on the evenings and weekends. We chose our flat because it is a mixed use development!
2014/6031/P	Morag McLaren	118-122 Grafton Road	20/10/2014 09:27:11	COMMNT	Concerns re: Access: only 1 entry door to property building works could cause restrictions / blockages Security: during build likely that main entry door will be left / propped open negating double door security Noise: currently there is almost no noise from property outside of 9-5 or on weekends. Concerned that building work will be happening outside Mon-Fri 9-5 disturbing the peace.
