2014/6142/L	Elizabeth Sheridan	100 highgate road	29/10/2014 21:16:40 INT		I live next door and have seen the plans. The proposed work is in keeping with the area, will enhance the quality and outward appearance of the property and is an attractive design. It does not appear to have any issues of overlooking my property or reducing light significantly, but I would like further reassurance that a) this is really not the case and b) the permission is such that any future occupants would not be able to change the structure in a way that overlooked or reduced light to my garden. Once these points are addressed, I fully support the proposed work.
