Subject: 2014/5724/p - Erection of Side Extension, First Floor Level

Dear Olivier,

My family and I live in Flat D, 45 Maresfield Gardens. We have lived there since 2004.

I am writing on behalf of my family and I to object to planning application 2014/5724/p, submitted by our neighbours in Flats 1 and 2, Maresfield Gardens. I object whole heartedly to their side extension proposal. I think this work is not in keeping with the look and feel of buildings in this beautiful location. I also object to them submitting a planning application belatedly, after having undertaken work that they did not have permission to undertake.

On a wider note, can I say that the works undertaken at Flats 1 and 2 have turned out to be excessive. They have also been undertaken without permission, and in a highly dangerous manner; as was witnessed by the permanent maiming of one of the young workmen bound up in this ghastly project. I am very surprised that the works at Flats 1 and 2 have not been stopped, and the scene treated as a crime scene. I think the only way to bring sanity and some level of justice to this sorry episode is to throw out their planning application.

With kind regards,

Dr. Michael A. Ridley.

PS I will be writing to object to the felling of three trees in their garden.

Subject: 2014/5725/p - Extension of Existing Basement Level
Date: Thu, 23 Oct 2014 17:04:58 +0100

Dear Olivier,

My family and I live in Flat D, 45 Maresfield Gardens. We have lived there since 2004.

I am writing on behalf of my family and I to object to planning application 2014/5725/p, submitted by our neighbours in Flats 1 and 2, Maresfield Gardens. I object whole heartedly to the extension of their basement works. I think this work is excessive and we have concerns this significant work will undermine the foundations of our building. I also object to them submitting a planning application belatedly, after

having undertaken work that they did not have permission to undertake.

On a wider note, can I say that the works undertaken at Flats 1 and 2 have turned out to be excessive. They have also been undertaken without permission, and in a highly dangerous manner; as was witnessed by the permanent maiming of one of the young workmen bound up in this ghastly project. I am very surprised that the works at Flats 1 and 2 have not been stopped, and the scene treated as a crime scene. I think the only way to bring sanity and some level of justice to this sorry episode is to throw out their planning application.

With kind regards,

Dr. Michael A. Ridley.

PS I will be writing to object to the felling of three trees in their garden.
