

As proposed for discharge

Plan: 1:50 @ A2

Key	Name	Type	Quantity	Size
	Allium hollandicum Purple Sensation	Bulb	31	Bulb (autmun planted) or 2L if planted at any other time
	Calamagrostis acutifolia Karl Foerster	Grass	21	2L
	Festuca glauca Elijah Blue	Grass	11	2L
	Hebe rakaiensis	Shrub	3	10L
	Hedera screen	Climbing shrub	2	1.8m high x 1.36m wide
	Ligustrum lucidum Variegata	Tree	1	12/14cm girth; 3-4m high

Section A

Section B

Sections: 1:50 @ A2

PLANTS

Ligustrum lucidum Variegata: small evergreen tree; very good in restricted areas and thrives in most soils. Maintenance: regular watering until established, thereafter no regular maintenance required.

Hedera (Ivy) instant screen 1.8m high Wire trellis between wooden posts set away from the wall of the bin store to prevent ivy suckering on to wall. Maintenance: Regular watering in first year until established, thereafter watering need will be minimal. Trim with hedge trimmer as required

Allium hollandicum Purple sensation: spring flowering, architectural bulb Maintenance: either cut back after flowering or leave seed heads to stand over winter.

Hebe rakaiensis: neat evergreen mounded shrub, tolerant of pollution. Maintenance: Requires minimal pruning - remove any misplaced branches

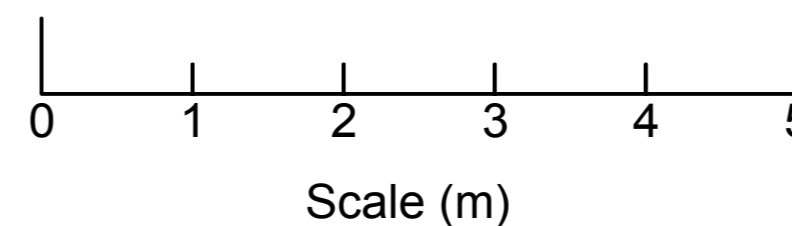

Festuca glauca Elijah Blue: Grass - neat, rounded and evergreen. Maintenance: Comb through plant in winter to remove dead foliage. Replace plants every few years when they become tatty looking.

Calamagrostis acutifolia Karl Foerster: grass with stiff erect habit that will produce a feathery screen. Early to come into leaf and can be left to stand through the winter. Maintenance: very low maintenance, simply cut down to the ground in February.

Revision No. Notes

- 1 Addition of tree and more planting to front of bin
- 2 Annotations added
- 3 Wall heights added; scale changed to 1:50
