Your comments on the planning application

Dear Applications team

I would first like to state that i am not against the redevelopment of 195-199 Grays Inn Road.

I have read all of the statements in the case file and looked at all of drawings that have been submitted.

It seems that the emphasis within the case file, has been directed on the impact the new development will have on the general public and just a small mention of the impact it will

### Planning Application Details

have on the existing tenants of 8,7 and 6 Mecklenburgh street.

With the proposed increase in height, our average direct sunlight to the communal garden would be reduced to zero..

A lot of time and energy has been made, so that our garden is lush and rich with plant life. It has been a place that all tenants have been able to enjoy over the summer months.

There is a small but significant eco system that has been established within the garden. Featuring six fruit trees, a herb garden along with plants established for maintaining the urban bee population. To Remove all available daylight from this space, would reduce this to just a lifeless and soulless communal space and kill most of the plant life.

With very little urban green spaces left in london, i feel that every effort must be made, in keeping every inch of available sunlight in our garden.

As i mentioned at the begging of my statement, i am not against this development, i am just against the proposed height increase to take it above the advertising boards that are at the back of 7 & 8 Mecklenburgh Street.

So with that in mind, i strongly object to the height increase.

Kind regards

Ed Bovington
