

Dear Sarah,

**RE: 2014/6068/P; 20 Guilford Street, London WC1N 1DZ
Erection of new hospital research building following the demolition of an existing computer facility.**

With respect to the above application, I can confirm that given the distance from the site to any part of the Transport for London Road Network (TLRN) or Strategic Road Network (SRN), or any TfL-owned transport infrastructure, and given the anticipated levels of trip generation, TfL have no objections to this development. However, we would request that a Construction Logistics Plan (CLP) in accordance with TfL guidance is secured as part of any planning permission.

Regards

Mark
