2014/5157/P	Steve Chambers	55 Dean Street London W1D 6AF	05/11/2014 11:10:41	OBJ	<p>The Soho Society is the amenity society for the Soho neighbourhood, which directly adjoins this site.</p> <p>The details of the application appear to have changed several times and at one stage indicated operating hours through the night until 5am. This would cause significant loss of residential amenity through noise nuisance and litter.</p> <p>The proposed hours (at time of these comments) of Monday to Saturday: 0500 - 0000hrs &amp; Sunday 0800 - 0000hrs are, however, in line with typical trading hours, with the exception of the 0500 start time which will attract noise nuisance and cause loss of residential amenity.</p> <p>The Soho Society does not object to this application on the condition the opening hours are restricted to 0600 to preserve residential amenity by restricting noise.</p>
2014/5157/P	Begom	90 Charing cross road	31/10/2014 15:01:35	COMNOT	<p>Hi, I totally am not happy with the new proposed time, I suffer from a lot of medical probs and already people gat have access to basement outside area make a lot of noise when using that area. The new early mining hours mean that staffs will start operating from 4am and this not acceptable, already 8am is still too early, also because of rubbish there is a lot of mess and mice, this area is the capital of London but compare to other cities this is the worse in cleanness. Please consider, hazard, health and consider a relaxed zone for residents.</p>
