Telephone number.. [REDACTED]

Planning application number... 2014/6291/P

Planning application address Ground floor 94 Camden Rd NW1
9EA

I support the application (please state reasons below)

I object to the application (please state reasons below)

Your comments

i would like to object to this application because my flat overlooks this roof terrace from above this is a residential triangle of properties this application is for a restaurant which will have the paying public eating & drinking and all the noise and disturbance that goes with that (possible smoking maybe music) this restaurant already benefits from extra seating on the pavement to the front of the premises so please reject this application to the rear

(i would also like to mention i have not seen any notices posted on a tree or lamp post is this normal?)

Many thanks
K.T. Nicol

Please continue on extra sheets if you wish

I support the application (please state reasons below)
I object to the application (please state reasons below)

Your comments

I strongly object to this application for the reason that we will be overlooked by customers of a restaurant eating meals and drinking alcohol and the associated noise. This area is a residential enclave which I think will be blighted by this commercial development. Please refuse this application.
Yours faithfully [REDACTED]

I support the application (please state reasons below)

I object to the application (please state reasons below)

Your comments

I strongly oppose this application as I
do not as a resident of Highstone Mansions
want to view people on the terrace and
them to view me.
