2014/6243/P	Varda Korczak	Flat 2 113 Canfield gardens London NW6 3DY	12/11/2014 09:36:43	SUPNOT	We support the plans for erecting a rear extension to flat 4 in our building as per application 2014/6243/P Living below flat 4, we feel the extension will enhance the building and make the flat roof above our flat look nicer. We have been shown the plans and are very happy with the look and feel of this extension. It is in our interest to make the building look as appealing as possible particularly as we own our property. We are therefore in favour of the application. Please inform us if there is a committee meeting.
